Dr. Richard Foulkes
Future Vision Laser Eye Centers
40 S. Clay
Suite 9W
Hinsdale, IL 60521

Dear Dr. Foulkes,

Well, we did it! One year later...and I am seeing 20/20 without any annoying glasses or contacts! Actually, the results happened as quickly as the next Morning.

Thank you for everything.

Outside of witnessing my wife give birth to our daughter, this is the most incredible, life-changing event that has happened to me.

Like most people, I was a little scared at first of having my eyes zapped. I am so glad now that I had it done...and I would highly recommend it to anyone.

Once I saw Cisco Cotto, our News Reporter for Don & Roma, have the procedure done from Dr. Foulkes... that instantly gave me the courage. Cisco said that there is more pain sitting in a Dentist Chair than during the Lasik procedure...and he is exactly right! Since I have had it done, there have been many people from our station who have had the procedure including WLS Personalities Roe Conn and Drive Chicago Host Paul Brian.

All of us at ABC and WLS Radio are extremely pleased with the results!

Dr. Foulkes, thank you for performing your magic on me!

Best Regards,

Roger Keys
