

Smile for a Competitive Edge

A smile
above the rest.

“Share your smile with the world. It’s a symbol of friendship and peace.” So says Christie Brinkley. That famous smile has made her millions. And it’s important to know that in today’s fast-paced, highly competitive world, a beautifully aligned, bright smile exudes confidence and opens the door to better opportunities in both professional and social realms.

So if you are looking for a competitive edge in your life, you’ve come to the right place. Whether it’s whiter teeth or a more perfect smile, we can help. Through our in-house lab and my one-to-one oversight of each case, we craft the most natural-looking, longest lasting crowns, veneers, implants (you name it) around. We are proud of our work.

When our patients leave, they radiate confidence, warmth and beauty. A smile is like a welcome sign - kind and inviting - and it’s a confidence-builder, bar none.

We care - and we create beautiful smiles!

In good health,

Dr. Gerald Marlin
